

In the framework of the WTA CZ international conferences are held every year at which the latest findings in science and research related to construction rehabilitation and reconstruction are presented. Contributions are classified according to their particular orientation into individual sections. Part of the conference is a printed collection from the conference and other material.

This year, on the 19th - 20th November, 2020, there will be the 42th conference of „Rehabilitation and reconstruction of buildings 2020“and the 22th

international conference WTA 2020 "CRRB - 22th International Conference on Rehabilitation and Reconstruction of Building"

More detailed information about the 22th CRRB - Conference on Rehabilitation and Reconstruction of Buildings can be found at <http://crrb.wta.cz/>
