

### **WTA guidelines**

WTA enforces quality during rehabilitation and reconstruction of buildings. WTA GUIDELINES are well known throughout the world. These specify optimal material and technology. The WTA guidelines are recognised norms throughout the world and cover all fields.

Select guidelines in the framework of the WTA CZ guidelines have been translated into Czech for the use of experts in given fields and are offered for sale. The original language mutation (German) can be ordered at the website wta.de (<http://www.wta.de/de/node/node/652>).
